

BroadAspect introduces the next step in service. XG-FOS Internet brings Fiber to your office!

Ready to Launch?

BroadAspect's XG-FOS Fiber Optic Internet service surpasses even the most demanding firms requirements by delivering up to 1 Gbps of fiber network capacity while retaining the affordability and reliability that small and medium sized companies need. Each XG-FOS plan brings a fiber circuit directly to your office. With fiber to the office, XG-FOS is highly reliable with average up-time of 99.95%.

XG-FOS Advantages:

- Fiber circuit installed to customers office
- Start small and scale big: 100 Mbps to 10 Gbps
- Low Latency is ideal for video calls (Zoom/Teams)
- Public / Static IP Address (1) included
- No hidden, tricky fees

Amazing Fiber Internet service at prices your firm will love!
